RE: In re Proctor
Reexamination Control No. 90/005,892
US Patent No. 5,894,079
Art Unit 1638

Dear Ms. Nelson,

I am submitting an Information Disclosure Statement on behalf of CIAT,
requester of the reexamination of Patent No. 5,894,079 on the field bean cultivar named
“Enola”. This Information Disclosure Statement shall be integrated to the one submitted
on October 30, 2002.

With said statement I resubmit a copy of the scientific article “*Classical and
Molecular Genetic Studies of the Strong Greenish Yellow Seedcoat Color in “Wagenaar”*

11/29/2002 TSUGGS and “Enola” Common Bean” written by BASSET, LEE, OTTO and MCLEAN and
01 FC:1806 published in the ^{180.00 OP} Journal of The American Society for Horticultural Sciences in 2002.

This publication indicates that the plant structures of “Enola” and “Mayocoba” are
“virtually indistinguishable”, and that “Enola” is a selection from one of the pure-line

commercial cultivars from "Mayocoba". Pursuant to said information, the patent subject of reexamination lacks novelty.

In addition, I submit copies of documents that evidence that the yellow beans subject of said patent were offered for sale in the United States more than one year prior to the filing date and issuance date of the same. I would like to draw to your attention that pursuant to Section 102(b) of the Patent Act (35 U.S.C. §102(b)), the beans subject of Patent No. 5,894,079 do not meet the conditions for patentability because they were sold more than one year prior to the filing date of the patent application, and therefore "on sale bar" has operated.

I enclose the above documents for your review and consideration.

Finally, please update your records with the new address of the attorney at record for CIAT. Please send all future correspondences to:

John Dodds
Dodds & Associates
1707 N St., NW
Washington, DC 20036

Yours truly,

John Dodds
Attorney at Law
